

HDCS- Chaurjahari Hospital Rukum Nepal

Free Medical Camp

Place; - Shyalkhadi Rukum (one of the most remote place of Rukum)

Date: 22- 27 April 2016.

Shyala khadi is one of the most remote places of Rukum, Six years back, during diarrhea (cholera) epidemic, more than 250 people died in this area. We were continuously praying for this area. Because of the poverty and lack of health awareness and superstition, people are coping risk until the sever condition. We found such terrible condition at that time. Still the health problems are burring. There is no more hope for to do better. There is no road, no electricity and no health facilities. So we decided to go again and help the poor people. This was third free medical camp at this remote place.

Medical team travelled halfway by Jeep and half way by their foot.

We medical team (26- with medical students, job trainers and staffs,) started to walk *early in the morning at 6: 30 am and reached the camp place at 4: 30 pm after two days of walk and Jeep*). We carried the medicine and supplies with our self. Most of the time, we have to climb hills go up and down with narrow way; it was really amazing way.

701 people received our service including, male and children..

There were 18 antenatal women, 106 lower abdomen pain, 93 eye disease problems, 90 worms and dysentery, 50 ear infection, 66 chronic pulmonary disease , 112 Skin disease, 85 dental and gums infection, 21 uterus prolapsed and 61 orthopedics problems.

Registration and first line nurse taking vital signs (temperature, BP, pulse).

We provided the dental care (extraction) and minor surgeries too. Dr Rabindra Lama (dentist) removed 85 patients' dental carries. People received dental service second time in there by HDCS medical team.

Dr.Suman Rai and Nim Bdr Budha examined the patients. Patients were very happy, because they received service from doctors. It was good opportunity for them.

Pharmacy and medicine distributions.

She was suffering by diarrhea

Teaching hand washing.

We saw people and their life was so hard. Their children were alone in their house. Parents were in the field, jungle and out of county to earn something for their family.

She fall down from tree when she was cutting grass for her cattle and both hands were fractured.

Comment of the local community: - All the political leaders, school teachers, government officials were very supporting and happy with the HDCS- hospital and medical camp. We staffs were surprise because; local leaders and household people provided to our staff so nice sleeping room with their own beds. They request to continue such camp to different place like such remote area. They are very thankful with hospital.

Total cost of this camp was Euro 5,890 including medicine, supplies, transportation, food, advertisement, and other.

We thank and give all glory to our Lord Jesus Christ for this work our team were able to do. We thank staffs and expatriates, The Vision wouldn't have been possible without the dedicated and serving hearted staff and involvement of Community. We thank local leaders, school teachers and Nepal police. We thank for our prayers and supporters.

HDCS-Chaurjahari Hospital wishes to express its gratitude to Gossner Mission and its support in making it possible to provide this service to the poor people.
Please pray for next camps and its fund.

Sincerely,
Dil Bdr Giri
HDCS- Chaurjahari Hospital Rukum Nepal.
